Diary of using email

(S.W.Draper, disk courses 7 Oct 2007)

This diary is designed to record each time you use email in any way. Please fill it in EVERY time you look at your email even if you only check but do not read or send a message.

Name:

Day	Time	Messages read	Messages sent
Tues 1	3:55	2	0

How many sessions did you forget to record at all?

Do you think you forgot to record some learning events? How many, roughly?

Did you fill in some of the entries later, or only at the time of the session?
